SGS

THE CERTIFICATION AND BUSINESS ENHANCEMENT APPROACH

Organizations today are met with a variety of operational and business challenges. External forces, like competitors and regulatory bodies, also add a secondary level of pressures that must be anticipated. Additionally, both B2B and B2C firms are experiencing a large influx of customer data, across multiple touchpoints. The dividing factor between those who are successful and those who are not, is how they analyze and use that data for business enhancement. At SGS, we have developed a variety of solutions to not only meet these needs, but establish more efficient and profitable ways of working. Using our 140 years of experience and operational data set, we partner with clients to gain intelligent insights into their current business functions while simultaneously strategizing for the future. To meet the needs of our current customers and provide effective and modern solutions to current and future business issues, we offer three pillars of insights driven, customizable products and solutions.

SGS BUSINESS BENEFITS

-  Deliver innovative solutions and services that enhance businesses
-  Offer customized solutions, driven by proprietary insights
-  Provide services fundamental to ongoing success and sustained growth
-  Enable continuous improvement
-  Transform value chains

THE BUSINESS ENHANCEMENT PLATFORM

For decades, SGS has been known as the global leader in certification, working with clients in virtually any sector. This deep and broad experience in quality control management, regulatory compliance, and training has resulted in a staggering array of data points across industries. Utilizing this dataset, we have evolved our service offerings to include Business Enhancement—the process of transformation that improves or increases the value of an organization’s people, processes, product or service. Our Business Enhancement solutions offer the most up to date, practical insights to help you achieve your goals and ultimately BE the Benchmark.

In today's fast-paced economy, it is critical to keep abreast of the industry best practice, technical standards and the regulatory compliance requirements throughout your value chain. This calls for development of professional skills which enable you to achieve your goals.

At SGS Academy, we equip you with the knowledge and professional skills that help you to stay ahead of the market and enables you to continuously develop all aspects of your career and organization. We support you to elevate to the next level.

LEARNING AND DEVELOPMENT SOLUTIONS

As the leader in professional training, we draw on our years of worldwide experience to provide effective learning and development opportunities. We make a difference to individuals, teams and businesses, nurturing talent and enabling continuous organizational progression. Our specialists partner with course participants, identify improvement objectives and support their professional journey.

Professional development can be challenging; time is often limited and shared between other demands. However, training is one of the most important investments made by an individual. At SGS, we focus our portfolio of solutions on meeting industry and subject-specific needs. Our learning and development experts understand the challenges of adult learning and overcome them with engaging and innovative solutions designed to suit a variety of learning styles and time availability. Accelerated learning techniques encourage active and collaborative learning, while blended learning practices mean that courses are flexibly delivered using more than one method.

Our experts deliver high quality professional training across a wide range of subjects and industries, providing detailed information and guidance relevant to all stages of the value chain.

One of our aims for the Students is to develop their employability skills, helping them to become 'job-ready'.

We offer a wide range of courses relevant to your choice of career be it Manufacturing, Service, Automobile, Hospitality, Medical Devices, Packaging, Food, Education, Forestry, Retail, Banking & Finance or Information Technology Industry. We offer both accredited and unaccredited courses dealing with Quality, Environment, Safety, Sustainability, Leadership, Process Improvement and Security.

DELIVERY METHOD

Our training solutions are offered in a variety of delivery formats so that you can choose the ones that are best suited to your individual requirements. Our experts deliver face-to-face training in the form of public courses where you can join your industry peers and through in-house courses designed to meet the specific needs of your organization. If you prefer the flexibility of online training, we also offer SGS Academy e-learning solutions.

PUBLIC COURSES

Joining our face-to-face public courses gives you the opportunity to meet with colleagues from related industries and discuss course topics with others who have identified the same types of issues. As a result, you can share and gain best practice knowledge, not only from SGS experts, but also from industry professionals in similar organizational roles. Throughout all discussions our experienced and knowledgeable tutors help you to evaluate your insights so you are subsequently able to make prudent decisions when approaching strategic that within your business. Public courses are on fixed dates; please refer to our course calendar for more information.

IN-HOUSE COURSES

Running a standard or customized course at your premises allows you to shape the message and style of the presentation to suit the culture of your organization. It is the most convenient and cost-effective solution if you wish to train a few staff in the same location, or when confidentiality is an issue. Once we have agreed the dates and location for your training course, our experts work with you to identify and evaluate your learning objectives and to customize the course content to ensure they are met.

E-LEARNING COURSES

If you are looking for a flexible learning solution that you or those in your organization can fit around your schedule, our e-learning training offers an ideal option. Delivered quickly and effectively through our learning management system or yours, our global e-learning courses are easily accessible. Anyone taking our courses can simply access the content at any time. Our experts have prepared a portfolio of e-learning courses for your immediate use, or can work with you to prepare e-learning courses tailored to your specific needs. For any courses, you or those in your organization study, progress information can be simply tracked and monitored. Talk to us about how we can integrate your e-learning through our global learning management system.
